Foreword by the Rector

This brochure provides an overview of the quantitative development of the University of Innsbruck in recent years. The data show the numerous and successful efforts of our alma mater to position itself as an important research and teaching institution in the national and international higher education context. The positive development of the University of Innsbruck over the past 15 years is evident in almost all key figures.

Due to the Covid 19 pandemic, the University of Innsbruck was the first Austrian university to switch to online teaching in March 2020. Despite the enormous challenges, we managed to maintain high quality in research and teaching. Our staff and students provided outstanding achievements in key areas, e.g., a record numbers of graduates, of publications in international journals and of approved ERC grants.

I firmly believe that as an institution we dealt with the crisis very well. The situation remains difficult, but given recent developments, I am optimistic about the future. I want to emphasize that the success of the University of Innsbruck rests on the shoulders of all of our employees, not only in times of crisis. Also, I want to express my sincere thanks for their extraordinary commitment and impressive dedication in research, teaching and administration in the "Corona Year 2020"!

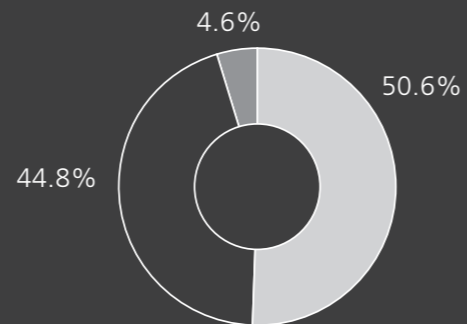

Univ.-Prof. Dr. Dr. h.c. mult. Tilmann Märk
