The rhetorical first person plural: theory and examples

**Dienstag, 30. Jänner 2024, 19.00 Uhr
Geiwi-Turm, SR 40432**

Abstract:

The conference examines from a theoretical viewpoint the semantic interpretation of the first person plural as opposed to its pragmatic value. The discussion focuses on non-prototypical uses of the pronoun and, in particular, on its rhetorical function, with the analysis of examples selected from different contexts, mainly belonging to the domain of political discourse.

Alle Interessierten sind herzlich eingeladen!
