

The Online Survey

From February to April 2024, an online survey was conducted to gather feedback from members of the broad target group of evaluators and quality experts. The members of the target group had the opportunity to thoroughly test the results of the RecoVET project in detail. They had access to the online tool, the handbook and the toolbox.

The evaluators and quality experts provided valuable comments and fruitful feedback, facilitating the finalization of the project outcomes. The positive tone of the feedback clearly indicated that the work is heading in the right direction and validated the efforts put into the project.

Online Meeting on 23 April 2024

On 23 April 2024, another online meeting was held with the project partners to discuss the results of the recently conducted survey.

Project-team on April 23, 2024

In addition to a detailed examination of the feedback from the online survey, further steps for implementing the feedback were developed.

Project-team on April 23, 2024

Special attention is being paid to ensuring that the outcomes of the RecoVET project become increasingly user-friendly during the process of addressing and incorporating the feedback.
