

16.10.2024

Tomica Mišljenović, Ph.D

Department of Ecology and Geography of Plants, University of Belgrade

Hyperaccumulator plants: ecological insights and biotechnological potential for metal recovery and agromining

06.11.2024

Dr. Juan Viruel, Department Ecosystem Stewardship, Kew Gardens

Biodiversity conservation informed by genetics

20.11.2024

Sandra Grünig, Ph.D

Department of Biology, University of Fribourg

Two cases of Ice-age speciation in and around the Alps

04.12.2024

Rosa Sanchez-Lucas, Ph.D / Prof. Dr. Estella Luna Diez,

School of Biosciences, University of Birmingham

Effects of future CO₂ levels on trees

15.01.2025

Claudio Ametrano, Ph.D, Department of Life Sciences, University of Trieste

Lichen evolution

29.01.2025

Prof. Dr. Thomas Roach, Institute of Botany, University of Innsbruck

Elucidating the role for bark photosynthesis in bud burst of sycamore (*Acer pseudoplatanus*)
