

1st Annual IWCR Meeting, November 08 2024

Program:

11:00 Get together/refreshments/snacks
12:00 Short overview over last year's developments
12:10 Presentation of post-doc work at GeoSphere Austria by Daniel Deacu and of IWCR (co)funded projects

(*) Improving the Representation of Land-Surface-Atmosphere Interactions over the Alps in GeoSphere Austria's NWP Systems

(*) Cold-air pool simulations with AROME

(*) Influence of Tropical Cyclones on Kilimanjaro's Glaciers

(*) Low stratus simulations with AROME in the Inn valley

Talks will provide overviews for experts outside the specific field.

13:00 Coffee exchange on several topics (expression of interests via survey)

14:30 Guided tour through the IAO city climate and city air lab

15:30 Closing of meeting/open end with drinks

16:00 End of the official part

The time frame from 11:00 to 16:00 is chosen to enable all interested colleagues from Vienna to participate.
