INTERNSHIP: Developing Waste Recirculation Process

Place of work: Camarles

Period: **4 weeks between July and August 2025**

YOUR JOB

You will be part of the Sales and Quality & Environment team in Waste Recirculation. Our primary goal is to minimize waste generation as much as possible and reintegrate any unavoidable waste back into the production process. Your role involves developing technical waste recirculation procedures, including prototypes, machinery, and processes, in collaboration with the GREEN worktable. You will apply your technical concepts in a real work environment, working closely with a team.

YOUR TASKS

- **Create** a procedure and a presentation about waste recirculation
- **Assist** in technical concepts of current trends
- **Assist** in the development of prototypes, machinery and processes

YOUR SKILLS

- Advanced knowledge in **chemistry** and/or **material science** or **plastics technology** with focus on **sustainability**
- Ability to work in a **structured & independent** way
- Analytical and **scientific approach** to the project
- Fluency in **English and Spanish** – in the region of Carmales Catalan language is spoken

YOU GET

- A **unique internship** position
- A **top salary** of at least 1.500 euros (net. p.m./ respective equivalent)
- **Travel and accommodation costs** are **covered**
- A **huge kick-start** for your career

YOUR COMPANY

Amiblu, member of the Wintersdorfer Group, is a global manufacturer of GRP pipe systems. You will be based at the Camarles site in Spain, one of the company's seven production facilities. Around 1,400 specialists manufacture sustainable GRP piping systems, serving applications in drinking water supply, irrigation, combined and wastewater management, hydropower, and various industries.

The Austrian Wintersdorfer Group is an international industrial company in the building materials and piping sectors. Its business areas include cement & concrete, lime, industrial minerals, GRP, and thermoplastic piping systems. With subsidiaries like Alpacem, InterCal, Amiblu, HOBAS, O-Tek, Poloplast and Calcit, the family group operates in 48 countries.
